PROFILE SUMMARY

Motivated Software Engineering undergraduate with hands-on industry experience in designing and developing enterprise applications. Experienced in full-stack development using Java, Spring Boot, React.js, and MySQL, with exposure to requirement analysis, system analysis, software testing, and User Acceptance Testing (UAT). Passionate about building scalable software solutions and continuously enhancing technical and professional skills.

LANGUAGE

- Sinhala
- English

PROFESSIONAL SKILLS

Programming Languages:

- Java, C, SQL, JavaScript, Dart

Backend Technologies

- Spring Boot, JSP & Servlets, REST API Development

Database Technologies:

- MySQL, Firebase

Frontend Technologies

- React.js, HTML5, CSS3

Software Engineering Skills

- Object-Oriented Programming (OOP), Data Structures & Algorithms, Requirement Analysis, System Analysis, SDLC, User Acceptance Testing (UAT), Test Case Design, Software Testing & Debugging

Tools

- Git & GitHub
- Postman
- IntelliJ IDEA
- VS Code

EDUCATION

BSc (Hons) in Software Engineering

- National School of Business Management (NSBM), Homagama, Sri Lanka
- Currently in 4th Year, 2nd Semester | **GPA: 3.60**

Diploma in Computer Studies

- Vocational Training Center, Dehiwala

Passed G.C.E. Advanced Level (A/L) - 2020

- Sri Dharmaloka College, Kelaniya
- Stream: Physical Science

Passed G.C.E. Ordinary Level (O/L) - 2016

- St. Francis College, Dalugama

EXPERIENCE

Software Engineering Intern

Education Co-operative Society (EDCS)

January 2026 - Present

- Independently developed an internal Complaint Management System using Spring Boot, React.js, and MySQL.
- Currently developing an internal IT Support Ticket Management System.
- Involved in the complete SDLC, including requirement analysis, development, testing, deployment, and maintenance.
- Reviewed ERP documentation, prepared UAT test cases, and conducted system analysis.
- Developed RESTful APIs and collaborated with stakeholders to improve business processes.

IT Trainee - Landscape Management Division

University of Sri Jayewardenepura

Completed a 6-month practical IT related training program in the Landscape Management Division, supporting internal systems and software applications.

CONTENT CREATION & LEADERSHIP

YouTube Channel: Coding Journey with Akila

- Founder & Content Creator – Since 2019
- Created educational videos supporting undergraduates with university modules (e.g., Mathematics, coding tutorials, subject explanations).
- Focus areas: Java, Mathematics for computing, Algorithms and Data structures, web development, C language, Statistics.

PROJECTS

Student Management System

A web-based application designed to manage student records, including registration, marks, and attendance. Developed for academic administrative use.

- Technologies: HTML, CSS, PHP, JavaScript
- [GitHub Link](#)

E- Commerce Web Site

Designed as part of the DEA module, this Java-based project simulates basic online shopping experience including product listings, cart features, and order processing.

- Technologies: Java, JSP, Servlets, MySQL
- [GitHub Link](#)

Class Attendance System

A system to record and monitor student attendance to the teacher, designed for easily mark and track classroom presence.

- Technologies: Java, JSP, Servlets, MySQL
- [GitHub Link](#)

ReadLK – Accessible Reading App

Developed as part of a UI/UX Design project. A mobile-friendly reading platform designed to improve content accessibility for users with visual and cognitive impairments. Focused on inclusive typography, contrast, and user-centric design principles.

- Technologies: Figma (UI/UX Design Tool)
- [Figma link](#)

Air Quality Monitoring Web Application

Developed a web-based system to monitor and manage air quality data with real-time data fetching and admin panel functionality. Includes features for data retrieval, alert management, and user authentication.

- Technologies: PHP, JavaScript, HTML, SQL Server
- [GitHub Link](#)

UNIVISION – University Guidance App

Flutter-based mobile app to help students search universities, explore degree programs, and discover career paths based on Z-scores.

- Technologies: Dart, Flutter, Firebase, Firestore
