

AKILA UDANTHA

ASSOCIATE SOFTWARE ENGINEER | FINAL-YEAR BSc (Hons) SOFTWARE ENGINEERING UNDERGRADUATE

+94 75 039 3013 | Akilaudantha09@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Associate Software Engineer and final-year Software Engineering undergraduate with hands-on experience developing enterprise web applications and internal business systems. Strong foundation in React.js, TypeScript, Java, Spring Boot, REST APIs, MySQL/PostgreSQL, software testing, and system analysis. Experienced across requirements, implementation, debugging, UAT, deployment, and maintenance, with a practical focus on building reliable and maintainable software solutions.

PROFESSIONAL EXPERIENCE

Associate Software Engineer | OLAK TECHNOLOGIES PVT LTD

Aug 2026 - Present

Sri Lanka

- Contribute to the development and enhancement of enterprise web applications, with a strong focus on frontend engineering using React.js, TypeScript, and Material UI.
- Implement and refine user flows for subscription/package selection, feature access, project management, payment interfaces, and responsive application screens.
- Integrate frontend components with REST APIs and troubleshoot application data-flow, routing, authentication/authorization, and state-related issues.
- Use Git and GitLab feature branches, merge requests, and issue-based workflows to deliver changes and collaborate with the development team.

Software Engineering Intern | Education Co-operative Society (EDCS)

Jan 2026 - Jul 2026

Sri Lanka

- Independently developed and deployed an internal Complaint Management System using Spring Boot, React.js, and MySQL.
Live system: complaint.edcs.lk
- Independently developed an internal IT Support Ticket Management System to support structured issue reporting and follow-up.
- Participated in the full SDLC, including requirement analysis, system analysis, development, testing, deployment, maintenance, and stakeholder feedback.
- Reviewed ERP documentation, prepared UAT test cases, supported system analysis, and developed RESTful APIs for business process improvements.

IT Trainee - Landscape Management Division | University of Sri Jayewardenepura

6-month training

- Completed practical IT training supporting internal systems and software applications, including day-to-day application and operational IT support.

EDUCATION

BSc (Hons) in Software Engineering | NSBM Green University

Expected Dec 2026

Homagama, Sri Lanka

- Final Year, 2nd Semester | GPA: 3.60

Diploma in Computer Studies | Vocational Training Center, Dehiwala

G.C.E. Advanced Level - Physical Science | Sri Dharmaloka College, Kelaniya

2020

G.C.E. Ordinary Level | St. Francis College, Dalugama

2016

TECHNICAL SKILLS

Programming: Java, JavaScript, TypeScript, SQL, C, Dart

Frontend: React.js, HTML5, CSS3, Material UI

Backend & APIs: Spring Boot, JSP & Servlets, REST API Development

Databases: MySQL, PostgreSQL, Firebase / Firestore

Tools: Git, GitHub, GitLab, Postman, pgAdmin, IntelliJ IDEA, VS Code, Figma

Software Engineering: OOP, Data Structures & Algorithms, Requirement Analysis, System Analysis, SDLC, UAT, Test Case Design, Software Testing, Debugging

SELECTED PROJECTS

School Timetable Management System | *React.js, Java, Spring Boot, REST APIs*

Final-year project focused on a school timetable management system designed to support school administration and timetable-related operations. The solution includes a React.js frontend and backend services for school and teacher management, connected through REST APIs.

Student Management System | *HTML, CSS, PHP, JavaScript*

Web application for student registration, marks, attendance, and academic record management.

GitHub: [Student Management System](#)

E-Commerce Web Application | *Java, JSP, Servlets, MySQL*

Java-based online shopping application with product listings, shopping cart functionality, and order processing.

GitHub: [E-Commerce Project](#)

Air Quality Monitoring Web Application | *PHP, JavaScript, HTML, SQL Server*

Web system for real-time air-quality data retrieval, alert management, administration, and user authentication.

GitHub: [Air Quality Monitoring](#)

UNIVISION - University Guidance App | *Flutter, Dart, Firebase, Firestore*

Mobile application helping students explore universities, degree programs, and career pathways based on Z-score information.

GitHub: [UNIVISION](#)

ReadLK - Accessible Reading App | *Figma, UI/UX Design*

Mobile-friendly reading platform focused on accessibility for users with visual and cognitive impairments through inclusive typography, contrast, and user-centered design.

Figma: [ReadLK](#)

LEADERSHIP & CONTENT CREATION

Founder & Content Creator - Coding Journey with Akila

Creating educational content since 2019 for undergraduates, covering Java, mathematics for computing, algorithms and data structures, web development, C programming, and statistics.

YouTube Channel

LANGUAGES

Sinhala - Native / Fluent | English - Professional working proficiency
